

The Mechanics of Developing Competitive Proposals

A Workshop for Junior Faculty, New University Faculty Members and Graduate Researchers in
BIO Directorate Funding Opportunities

Have you ever wondered how to successfully complete a proposal submission to a government agency?

Are you striving to identify faculty members from complementary disciplines to partner with on cross functional research Request For Proposals (RFPs)?

Do you want to know how to create measures of success and evaluation tools that convince granters that you can deliver?

Topics Discussed:

Strategies for completing proposals
Tips and common roadblocks
RFP Resources
Identifying Mentors

Support Personnel:

Representatives from the
Directorate of Biological Sciences (BIO)

Join us for a highly interactive presentation on what's involved in developing and submitting a winning proposal!

Come away with a new understanding of how to communicate your ideas in a way to get your proposal noticed!

Discuss proposal planning, preparation, review and management!
